

THE FOUNDATION TO DEVELOP A BETTER UNDERSTANDING OF THE WORLD

Art and Culture:

Our visual arts programme allows students to express themselves using a wide variety of mediums and techniques. Essential to the programme are reflection and appreciation of artworks from a range of cultures and media (including the students' work), encouraging students to make critical judgments as well as value the expression of others.

The music programme focuses on developing a love of music, introducing students to a wide variety of musical styles and genres. They are exposed to a variety of musical instruments to interpret and develop their own melodies as they learn notation and composition.

The performing arts programme enables students to express themselves, share ideas, communicate, negotiate and see others' point of view.
